I don't think it is, I'm skimming and it will prevent rewrites later (less cost and work for the contractors. Appreciate the thought though.

Kathy,

I'm taking a look at the comments we have on this draft and I don't think it would be worth you reviewing it now. We have a bunch of changes to still make, are adding the content we discussed yesterday, and I think the next draft will be pretty darn different.

I think I would prefer you take a look at our next draft with fresh eyes, but obviously defer to you.

Thanks and have a great weekend!

Mike

Jess,

Kathy provided some more info below, highlighted in yellow and in blue.

Best,  
Mike

Based upon today's call, I've added after each bullet who has burden associated with each bullet and highlighted that in yellow.

I also added context and specificity to some items and those are in blue.

Hi all,

Just recirculating this message in case it's helpful for facilitating discussion on the EA this morning.

Best,  
Whitney

**Subject:** NHPA and ESA Steps

Hi all,

We talked last week about reflecting the "Florida Experience" for NHPA and ESA consultation when developing estimates/descriptions for the EA/ICR. As promised, I'm listing the pieces of paper (bold + underlined) and steps that Florida is taking for NHPA and ESA consultation to facilitate conversation at this Thursday's meeting. Kathy may have

more to add. NHPA has more “steps” in our timeline but ESA is the bigger time lift in Florida’s case because of the complexity of their Biological Evaluation.
